

## **Networqyi MVP Plan (with Freemium Limits)**

### **Overall Flow**

1. User lands on website
2. Without login, user can make 5 free queries
3. After 5 queries, user is asked to sign up / sign in
4. After signup, user gets 15 free queries per day
5. If user exceeds 15/day -> Prompt paywall (buy subscription to continue)

### **MVP Features (Updated)**

- Anonymous Queries
- Auth System (Email/Password + Google OAuth)
- Free Query Counter
- Dashboard
- Payment Integration
- AI Response Engine
- Save Matches
- Soft Paywall

### **Basic Pages for MVP Website**

- Home Page (Hero section + 'Start Networking')
- Query Page (Input query and see results)
- Sign Up / Sign In Page
- Dashboard
- Pricing Page
- Payment Success/Fail Pages

### **Backend Logic**

- Query Limits: 5 free queries without login; 15/day after login
- Authentication via Firebase Auth or Supabase
- Database: Users Table, Saved Matches Table

# **Networqyi MVP Plan (with Freemium Limits)**

## **Subscription Plan (MVP Pricing)**

- Free Plan: \$0 (15 queries/day)
- Pro Monthly: \$9.99/month (Unlimited queries)
- Pro Yearly: \$99/year (Discounted)

## **Tech Stack**

- Frontend: Next.js + Tailwind CSS
- Authentication: Firebase Auth / Supabase
- Database: Firestore / Supabase Postgres
- AI Backend: FastAPI + GPT-4 or Llama-3
- Hosting: Vercel + Railway/AWS
- Payments: Stripe / Razorpay

## **User Journey**

1. Land on website
2. Enter queries (up to 5 free without login)
3. After 5 queries -> Pop-up to sign up
4. Post-signup -> 15 queries/day unlocked
5. After 15 queries -> Soft paywall and subscription option

## **Summary**

Networqyi MVP = Free taste with 5 queries, easy signup, daily limits, smart paywall, and clear upgrade path.
